WirtschaftsWoche: HERMETIC among the 2018 Global Market Leader Champions

Gundelfingen-based pump specialist leaps to top ranking index of the University of St. Gallen

From a small, single-owner operation to world market leader: As specialists for canned motor pumps, we have earned a worldwide reputation for safe and long-lasting pumps which can be used for the most extreme applications and hazardous conveying media. The Gundelfingen-based family-owned company has now been admitted to the coveted World Market Leader Index of the University of St. Gallen, as reported by the magazine WirtschaftsWoche at the end of January. Among the selected businesses were 450 companies that succeeded in becoming number one in their specific sector. HERMETIC is listed as the 2018 Global Market Leader Champion in the "hermetically sealed centrifugal pumps (canned motor pumps)" sector.

HERMETIC V-Line: Modular configurable canned motor pumps for the chemical and petrochemical industries

Expert tool allows online selection and optimisation of design parameters with just a few clicks

Thanks to the restructuring of its pump portfolio into three clearly divided areas, HERMETIC-Pumpen GmbH, a leading developer and manufacturer of hermetically sealed pumps, has geared its product range even more consistently to the market dynamics in plant construction. The specialist for canned motor pumps has combined a defined selection of common single-stage and multi-stage chemical pumps in the product line "V-Line" and optimised their production and logistics. The result: V-Line offers modular configurable pump variants with optimised delivery times of 8 to 12 weeks for a wide range of applications. Without exception, all pumps meet the high HERMETIC quality standards including the unique ZART® (Zero Axial and Radial Thrust) principle. An innovative online expert tool allows configuration with just a few clicks.
