KICK-OFF AT THE ACHEMA 2018
STAR PUMP ALLIANCE - THE NEW INFORMATION PORTAL FOR THE PUMP INDUSTRY

The aim of the Star Pump Alliance is to help professional pump users choose the right pumping technology for their application.

In their search for application-specific, mostly individualized information on pump technologies, professional pump users are often dissatisfied with the results of conventional search engines, as these do not meet the requirements of industrial applications.

The new platform and the kick-off will be published at the ACHEMA in Frankfurt.

Visit Star Pump Alliance at the ACHEMA - located in the Galleria between the halls 8 and 9. Booth GA.0 A6. Test the function of the new Website and Pump Selector.
